**To schedule an appointment with any of these experienced providers, please call the number next to their name and our staff will be happy to assist you. To learn more about them, visit [jhcp.org](http://jhcp.org).**

Several insurance plans require their members to select a primary care provider (PCP) in order to receive maximum coverage benefits. If your insurance card has a space for a PCP, once you choose your new primary care provider you will need to contact your insurance company to update your records.

When you make an appointment with another Johns Hopkins Community Physicians provider, your electronic medical record and insurance information automatically transfer, providing a seamless transition.

Thank you for placing your trust in us. We are pleased to offer you outstanding health care from one of the most trusted names in medicine, and we look forward to continuing to serve you.

Sincerely,
