

A Free and Easy App for Healthcare Providers

The **Johns Hopkins Menopause Guide** highlights caring for the Woman experiencing Menopause. Developed by experts at Johns Hopkins Medicine, the Guide helps healthcare providers of all disciplines practice menopause medicine as well as support the health and wellness of aging women.

The Johns Hopkins Menopause Guide:

- Serves as a free resource for healthcare providers covering menopause symptoms, treatment, special topics, and management tools.
- Organizes details of symptoms, treatment, special topics, and management tools into easily accessible, quick-read entries. Content is updated regularly and is designed to help residents and practitioners make decisions at the point of care.
- Includes authored content from Editor-in-Chief, Wen Shen, M.D., M.P.H. and more than 20 experts at Johns Hopkins Medicine.
