

JOHNS HOPKINS COMMUNITY-BASED PHARMACY RESIDENCY PROGRAMS

The residency programs offered at JHCH emphasize the development of advanced practical skills needed by community pharmacy practitioners concentrating on enhancing existing clinical services and implementing pharmacy practice programs. The experience is individualized to each resident to develop clinical, analytical, teaching and leadership skills. Residents will provide patient care in a collaborative environment, gaining exposure to diverse clinical specialty areas.

WEBINAR INFORMATION

Interested candidates please register by clicking the link [here](#).
