Good afternoon,

We have recently finished an integrative review on best practices for gamification in digital learning and are excited to share our findings! We thought this might be a strong submission for your journal as you are seeking manuscripts on technology in nursing education, simulation and informatics. From reviewing your past publications, we noticed you have included several articles on gamification but have not yet published a more comprehensive review of the strategy as a teaching tool. I am reaching out to see if you think this would be of interest to your readers and an appropriate submission for your journal? If you this would be a good fit, we will prepare our manuscript for submission. Thank you very much for your time and consideration!

Best,

Maddie Whalen, MSN/MPH, RN, CEN
